OLD POINT COMFORT LIGHTHOUSE
A lighthouse was first built here in 1775; the current one was built in 1802 and featured 11 oil lanterns until it was automated in 1972.
Did you know? It is the oldest lighthouse still in use on the Chesapeake Bay.

An abstract painting featuring a textured, deep blue background. The texture is created with visible brushstrokes, giving it a painterly feel. In the lower center, the words "HAMPTON VA" are written in a white, sans-serif, all-caps font. A thin, white, slightly wavy line is drawn directly beneath the text. At the very bottom of the image, there is a horizontal bar composed of several distinct, rectangular blocks of color: dark blue, light blue, red, yellow, teal, and green. The overall composition is simple yet visually striking due to the contrast between the blue background and the white text and colorful base.
